

**2019 KCCS
Blepharoplasty
Special Expert Course**

Greetings

Dear Colleagues!

As a surgeon, it is a blessing to have the skills to make patients' dream come true. However, surgeons' skills are not always perfect when they do not have proper understanding of the ocular anatomy or full information of their patients. It is therefore important for aesthetic surgeons to have good clinical experiences.

KCCS has been very active in providing quality education on Korean cosmetic surgery since the society was founded. Following enthusiastic participation of doctors in last year's workshop, we have decided to hold Special Expert courses(Blepharoplasty) in Seoul and Busan in December this year.

This workshop allows KCCS members to obtain essential clinical experience and answers to questions every cosmetic surgeon might have. For each week, Teaching Fellows will perform live surgeries and conduct lectures to share their precious knowledge with attendees.

Live surgery demonstration provides the chance for participants to take part in practical use of the blepharoplasty knowledge they have gained during the lectures. This workshop will be an informative workshop focused on the crucial knowledge on blepharoplasty.

We look forward to seeing you in Seoul and Busan!

Date: December 2nd ~ December 7th

Introduction of Course

- (1) Level: Advanced
- (2) Course: Eyelid surgery course
- (3) Course fee: USD 5,500
- (4) Language: English
- (5) Venue: Cities in South Korea
- (6) Minimum applicants: 10 Doctors
- (7) Period of education: 6 Days
- (8) Dates for accepting applications: Course fee must be accepted by November 25th
- (9) KCCS International Membership: Before joining Special Expert Course, all applicants must apply for International Membership first (Application fee: USD 660).

Course Schedule

** ALL Programs are subject to change*

Date	Faculty	Period (Days)	Venue
December 2~3	Kyoung-Jin Kang	2	Busan
December 4~5	Woong-Chul Choi	2	Seoul
December 6~7	Juwan Park	2	Seoul

Registration

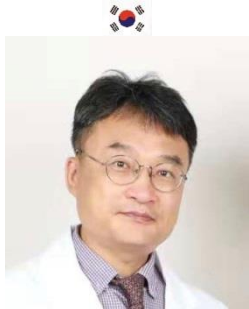

Kindly please contact us for the registration forms and submit the following documents to KCCS:

- (1) KCCS International Membership application form
- (2) 2019 KCCS Blepharoplasty Special Expert Course registration form
- (3) A Curriculum Vitae in one's own handwriting which has a photograph
- (4) A copy of medical license (a medical specialist must submit a copy of a specialist license additionally).

KCCS Teaching Fellows

Teaching Fellows	Name and Educational Sectors
	<p>Kyoung-Jin Kang, MD, PhD & FKCCS </p> <p>Director of Seoul Cosmetic Surgery Clinic Ex-Chief director of Department of Plastic & Reconstructive Surgery of Wallace Memorial Baptist Hospital, Busan, Korea Ex-Professor of Medical School, Dept. of Anatomy, Daegu Catholic University Founder & Chairman of KSKCS & KCCS Publisher & Founding Editor of Journal of Cosmetic Medicine</p>
	<p>Woong-Chul Choi, MD, PhD & FKCCS </p> <p>Oculoplastic Surgeon(Ophthalmologist) Blepharoplasty Director of Myoung Eye Plastic Surgery Clinic Ex-Clinical Attending Professor, Dept. of Ophthalmology, Medical School, Catholic University, Seoul, Korea Editor of Journal of Cosmetic Medicine</p>
	<p>Juwan Park, MD, PhD & FKCCS </p> <p>Oculoplastic Surgeon(Ophthalmologist) Blepharoplasty Director of iCON Eye Center Ex-associate Professor, Dept. of Ophthalmology, Medical School, Catholic University, Seoul, Korea 11th Vice President and Teaching Fellow of KCCS</p>

Program

Teaching Fellows	Name and Educational Sectors
 Kyoung-Jin Kang, MD, PhD & FKCCS	Mon. Dec. 2nd 10:00 -11:00 Lecture: Aging of upper lid, and evaluation and surgery plan for the aged patient. 11:00-12:00 Practice of DIYS: Preoperative markings for UBP in aged patient 13:00 -15:00 Live surgery: Upper blepharoplasty in aged patient 15:00-16:00 Lecture : Aging of lower lid, and evaluation and surgery plan for aged patient. 16:00-18:00 Live surgery: Lower blepharoplasty in aged patient Tues. Dec.3rd 10:00 -11:00 Lecture: 1. Causes of sunken upper eyelids and its correction. 2. Correction of UBP-induced brow ptosis in aged patient 11:00-13:00 Live surgery Upper blepharoplasty with correction of sunken eyelids using levator shortening and fat(filler) injection. 14:00 -15:00 Lecture: 1. Various techniques for prevention & correction of LBP-induced ectropion 2. Correction of lower sunken eyelids and lower lid laxity during lower blepharoplasty 15:00 -17:00 Live surgery Lower blepharoplasty in the old patient using canthopexy, suspension suture, fat or filler for volume balancing, or combination with mid-face lifting.

Woong-Chul Choi,
MD, PhD & FKCCS

1st day (Dec 04 Wed)

14:00 – 18:00 **lecture**

2nd day (Dec 05 Thr)

10:00 – 10:30 live surgery case 1 (simple upper : stitches method or partial incision)

10:30 – 11:30 live surgery case 2(mini incisional upper blepharoplasty with selective levator advancement + med.epicanthoplasty)

11:30 – 12:30 live surgery case 3 (aging upper bleph)

12:30 - 14:00 lunch and discussion

14:00 – 15:00 live surgery case 4 (lower bleph: TC fat removal and skin pinch)

15:00 – 16:00 revision upper bleph

16:00 – 17:30 lower bleph(fat reposition)

Lecture contents

What are important anatomical structures for upper bleph & ptosis surgery in Asian?

Ptosis evaluation and correction(levator advancement and levator resection)

The method to get fast recovery and good wound healing during upper bleph

Adjunctive Botox therapy after upper bleph or ptosis surgery

Prevention and management of complications after upper bleph or ptosis

tips of ptosis correction (from mild one to severe)

revision upper blepharoplasty (when, how to fix it?)

What are important anatomical structures for lower bleph?

Surgical techniques to prevent postop lower lid ectropion and retraction.

TC approach vs skin approach

Fat reposition technique for lower bleph

Management of lower bleph complications

Juwan Park, MD,
PhD & FKCCS

December 6~7

Fri 11:00~13:00 Live surgery

13:00~14:00 Lunch

14:00~18:00 Live surgery

Sat 14:00~18:00 Lecture

Topics

- Functional aspects of eyelid surgery

- Upper blepharoplasty; suture technique/excision technique

- Upper blepharoptosis correction; anterior approach technique/posterior approach technique/small incision minimal dissection technique

- Medial epicanthoplasty; Hiraga/skin redraping/Z plasty

- Lateral canthopexy & canthoplasty

- Lower blepharoplasty; dual approach technique

- Lower lid malposition correction; epiblepharon/entropion/ectropion/retraction
